## Monroe® Reflex® Monotube Shocks

Monroe Reflex Monotube shocks for light trucks and SUVs are application-engineered to feature the same construction and valving technology specified by the OE manufacturer. The larger bore and piston size, along with the single-tube design, allow for quick, deliberate response, maximizing tire-to-road contact. The result is OE-quality control for like-new performance.

Available for Mazda and Nissan trucks by Special Order Only.

## Reflex Shock Absorbers

- Engineered for light trucks, SUV's and other vehicles with a high center of gravity
- Tuned to deliver optimum safety and control
- Provides a reduction of up to 12% in vehicle roll rate during evasive maneuvers
- The Reflex Impact Sensor™ valve has the ability to sense acceleration, improving handling, safety, and overall ride characteristics

Shocks - 91000 Series  
Struts - 93000 Series

## Sensa-Trac Shock Absorbers

- Fluon banded piston, part of the Safe Tech™ system works with the patented groove tube technology to provide superior responsiveness to changing road conditions
- Application engineered with fully displaced valving, for optimum light truck ride tuning
- Nitrogen gas charge helps to maintain tire to road contact by reducing aeration, improving ride and handling
